

A crown of glory is a beautiful head of hair. An Australian lady now in London writes under date Jan. 28, 1907:

"Ayer's Hair Vigor has done my hair a world of good. Thanks to it, my hair is now thick, glossy, and soft, and when plaited is 63 inches long. Ayer's Hair Vigor ought to be used by every woman who takes pride in her appearance."

You also may have such a crown of glory if you will follow the example of this lady and use

Ayer's Hair Vigor

It will remove all dandruff and make your hair rich and abundant.

IF IT'S PAIN

And you are almost ready to give up all despair, try Dr. Miles' Anti-Pain Pills. It matters not where located, or under what conditions, they will drive it away—pain is bound to yield to their soothing influence upon the nerves. Sufferers from Headache, Neuralgia, Dizziness, Indigestion, Periodic or other aches and pains, are sure to be relieved by their use. Never sold in bulk. First package benefits, or money back.

SPORTS

GOLF LINKS HIGH IN THE MOUNTAINS

DELIGHTFUL, SITUATED COURSE IN THE ALPS, 5000 FEET ABOVE LEVEL OF THE SEA

Only a few years ago golf links in the Alps would have been regarded as an impossibility, and the man who proposed to buy one out at a source of profit would have been looked upon as a bit of a lunatic. Says the Pall Mall Gazette, "And probably the opinions would have been sound then, but now all that is changed, and several excellent links have been made right up among the mountains. There during the summer months, when the ground is not covered with snow, British players and players of other nations golf amid the most delightful surroundings."

The newest mountain links are at Montan-sur-Sierre, 5000 feet above the sea, where an excellent 18-hole course has been laid out by the Montan Golf Club, which is in connection with the Palace Hotel. It was planned by Freemantle, ex-champion of Switzerland, and professional at Hyeres and Samaden, and C. B. Gedge, a prominent member of the Kentwell and Cromer Golf Club, and reflects great credit upon their perception of the merits of golfing land. There is considerable variety about the holes, and it is in my opinion that the player who ends up all square bogie may pat himself on the back, while as regards surroundings, it would be difficult to find a more delightfully situated course.

It is worth making the journey to Switzerland to play over it, for, although many golfers are insensible to the beauties around them, while they are actually playing, nobody is above the influence of a bracing and invigorating atmosphere. Such a course as this would be the making of and place within easy reach of a large city, and, unless I am much mistaken, it will be the making of Montana, for golfers are not easily deterred by distance when they have once discovered a link worthy of their mettle. Moreover, although it is a long journey from England, it is easily made. There is an excellent and quick service from Paris to Sierre, and from there the hotel which is the headquarters of the golf club can be reached in a carriage or a very good mountain road in about three hours. Or those who are energetic can walk from the railway station to the Palace Hotel in about two hours and a half, and they can send their baggage by carrier.

The holes vary in length from 110 yards to 450 yards, and the total length of the full medal course is 5396 yards, for which the bogie is set at 79. The lies through the green are excellent, being on old mountain turf, which raises the ball on natural tees, and the putting greens are good and require careful thought. Indeed, considering how recently the course has been made, it is in wonderfully good condition; and when the greens have been attended to for a couple of years it will be a first-class course that will test the skill of any player. As it is, the man who aspires to play a good round must have a good many shots in his bag. Long tee shots are the rule, but there are exceptions, and the approaches must be made with judgment and care, as it is not easy to stay on any of the greens, most of which are undulating and tricky.

SPORT NOTES

Rube Waddell, the ball player, according to Ossie Shreck, was boasting that some admirer of his had given him a check for \$100.

"What's the man's name?" asked Ossie.

"I dunno," said Rube, "the check was anonymous."

The Chinese A. C. will meet this evening at seven thirty in the Chinese Y. M. C. A. hall, to arrange for the athletic field day that will be held on Chinese New Year's. Chinese New Year falls on February 1 this year, and it will only give those wishing to enter the events about six weeks to train. The club hopes that every member will be present this evening, so that the matter may be finally decided upon.

All negotiations are at an end relative to the baseball game Sunday afternoon between the Chinese A. C. and the Palamas. For some reason or other the two teams did not agree with the management, and the baseball field day will be held instead. The chances look very bright for the Hawaiian players taking the speed events. Any member of the coast team will have to go some if they want to beat En Sue at running round the bases and beating out a punt to first. This little player has done a hundred in 19 flat and any one of the coast players

BAND WILL BE USED TO RATTLE PLAYERS

MASQUERADE BASEBALL GAME WILL PROVIDE NO END OF AMUSEMENT

After today the bill boards of Honolulu will look as if a circus was coming to town, but it will only be the posters for the baseball carnival which will be held at the league grounds on New Year's day. The manager of the carnival, Walter Doyle, sent back East for some posters a few weeks ago, and in the last mail received word that they would be here on the Alameda which is due today.

The masquerade baseball game which is to be held on New Year's day will be the most interesting event of its kind that has ever taken place here in Honolulu. Every baseball team in Honolulu has agreed not to play on that day, as the gate receipts are to go entirely to the yacht fund, and every one wishes to help it along. Each player will be attired in the funniest costume that they can get, and it will be a laughing farce from start to finish.

No one expects to see good baseball as the teams will be composed of men of all ages, and the idea is to make it as funny as possible. The carnival will probably attract a large number of the "400," as a number of the players who have already made application to play, belong to some of the oldest families in the Territory. Each player will agree to have a different suit.

It is very likely that the players will march around town before they leave for the league grounds. The band will play during the entire game with very small intermissions, so that the players will be as much rattled as possible. Any one who has an idea of a costume will greatly oblige the management of the big show, if they will communicate with him, as he has many applications asking for ideas. Some of the merchants in town are going to give prizes, and Peacock & Co. have already donated a case of their best goods to go to the team winning the game.

than can beat that, will certainly be entitled to the victory. In the first set games held here shortly before the St. Louis team left for Japan, En Sue made a circle of the bases in 14, and can do even better than that. The field games will be started at 2 p. m. and the baseball game at three sharp. A number of the fans are very anxious to have these games, and now that the game between the two rival teams of the Riverside League is off, the public will be treated to something even more interesting.

Every detail has been completed, and this afternoon at one o'clock promptly the first event in the Wild West show will be run off. Yesterday afternoon a full dress rehearsal was held at the league grounds, and the management claim that there will be no hitches this afternoon in any of the events. The stage hold up was rehearsed yesterday afternoon and every one who saw it say that it was well done. Last night the cowboys and Indians who will take part in the two days show, were given a thorough schooling by Charles Frazier, the famous frontier scout.

The first indoor baseball game of the second series, was played last night in the Y. M. C. A. gymnasium and resulted in a victory for the Ironworkers by the rather one sided score of 11 to 4. The following is the line up and score by innings:

Ironworkers—J. Baptist, c.; J. Honan, p.; C. Ziegler, 1b.; C. Honan, 2b.; C. Girvin, 3; E. Dunn, rf. Financiers—C. Louis, c.; C. Gilliland, p.; J. Clarke, 1b.; G. Waterhouse, 2b.; M. de Colto, 3b.; I. Spalding rf.

Score by Innings:
1 2 3 4 5 6 7 8 9
Ironworkers . . . 0 3 0 2 0 2 2 0—11
Financiers . . . 0 0 1 1 0 1 0 1—4
Umpires—F. A. Bechert, C. H. Smith.
Scorer—S. Gardia.
Time of game—55 minutes.

BURNS AS UMPIRE.

HILO, December 9.—Manager Fisher was brought before the public by J. U. Smith and responded with a short speech in which he announced his intention of going to the Volcano today and there playing a championship game against Madame Pele's nine. He stated that the game would be umpired by Arthur M. Burns, editor of the Hilo Tribune, who understood baseball and the conditions under which the game would be played, better than anyone else who could be found.

A PARTY OF SEVERAL.

The Nashville American says the democratic party is a one-man party. Certainly more than that; we can count at least seven, to say nothing of other indications.—Houston Post.

TONNAGE TAX IS WARM SUBJECT

MERCHANTS WANT LIGHT ON RECEIPTS AND EXPENDITURES, BUT THERE IS NOTHING DOING

The last and most interesting meeting of the Merchants' Association for the year 1907 was held yesterday afternoon in the Association rooms in the McCandless building. A few minutes after the meeting had commenced President Smith announced that a quorum was present, and that he considered it a good thing to advertise. "The last meeting was such a failure as far as numbers go, that I was determined to get a large number present today if possible."

During the entire meeting matters of great interest were taken up, and the debates were very interesting. Much interest was taken by the members relative to the Shippers' Wharf Tax, a matter which a number of the members admitted they knew very little about, but considered it would be wise to continue paying their taxes when called upon to do so. Auditor McInerney sent a written report in the nature of a letter, showing the condition of the finances which proved that the Association had paid most of its debts, but was nearly in a minus condition, at the present time. McInerney was unable to be present, as he is at present doing jury duty. The total income had been \$1927.01 and the total disbursements \$1899.08 leaving a balance of \$27.93. The statement did not include the dues for the month of November, or the dues which are due for December. Chairman Smith asked about the outstanding bill for the dinner given to the visiting Congressmen amounting to \$360. Chairman Smith suggested that an assessment of \$5 a head be levied on each member to wipe out the debt. A motion was made and carried to that effect, but not before an objection had been made by John Emmelhuth protesting against such an arbitrary assessment. He said that he thought the committee should have had the money before the dinner was given. Fred Macfarlane chairman of the committee replied "that the committee had acted in good faith, but for some reason or other had neglected to take the matter up. The association is the one that owes the money, and not the committee. I think that the only thing to do is to place an assessment on each member and wipe out a debt which is an honorable one. At the time that the dinner was first thought of, a member of the Chamber of Commerce, one from the Planters Association, and myself were appointed by our respective organizations to arrange the details for the dinner which was given. The matter has been forgotten as far as this association is concerned, and I think that it should be paid at once."

The motion was then carried without any further debate or objection. Secretary Paris announced that no word had been received from the American Hawaiian S. S. Company in answer to the Association's cablegram sent to the home office in New York, protesting against the delay of Christmas freight in San Francisco. "Do you wish to take up the question of submarine torpedo boats?" asked the chairman. Receiving no reply the matter was laid on the table.

T. J. King wanted to know about the quarantine tax question, and also about the money that was being received, and to what use was it being put to. Paris replied by stating that some of the money was being paid to the Promotion Committee and they were getting great support from it.

At present there is between \$7000 and \$800 on hand. T. H. Petrie announced that the money was being paid to the Board of Health and the Promotion committee and that he thought that it should be continued. Secretary Paris announced that for three years the Merchants' Association have been trying to get a report from the Shippers' Wharf committee but had been unable to do so. Mr. King moved that a report should be asked for again.

General Soper asked if the association was represented on the tax commission and when told that it was not wanted to amend the motion to prevent the further collection of the tax. He said that no one could get any information, and all they were told to do was to keep on paying and to keep their mouths shut. The motion made by King was finally carried with a rider on it stating that the association wanted to continue the collection of the tax, but wanted a statement.

W. T. Lucas was very desirous of knowing why some goods were taxed and others not taxed. W. W. Harris explained that coal and lumber were not taxed as they received their charters outside, and that there was no agency to collect here. Fred Macfarlane said "that he did not see the point of Mr. Harris' explanation, and thought that the lumber and coal dealers should be taxed the same as everyone else. "I believe in equal taxation for all." He said that the time had arrived when the whole matter should be gone into. Gen. Soper then

moved that a committee of three be appointed, but withdrew his motion when Petrie explained that the Shippers' Wharf Committee were making an investigation of the questions raised.

E. M. Cheatham, of Ehlers & Company asked that the association should take up the matter of regulating the hoistrous element on Christmas eve. He was authorized by Sheriff Iaukea to state that the police would do the best they could, and the Association could have as many special police as they wished if the Association would pay for them. Chairman Smith did not see why the Association should pay for special police. It was finally decided to ask Sheriff Iaukea to do all he could to prevent bomb and confetti throwing, and general jollification.

John Emmelhuth wished the association to endorse the proposal to have a postoffice savings bank, but it did not meet with any enthusiasm by the other members present. Chairman Smith appointed a committee consisting of M. Phillips, E. A. Berndt and J. T. Warren to act as a nominating committee to recommend officers for the coming year. President Smith then made the following address and the meeting was adjourned.

"We, in this Territory, are better situated, financially and from a business standpoint, than any business community on the mainland. The farmer, in fact, is the only man on the mainland that has not felt the effect of the recent financial flurry."

"Here we have hardly felt it at all. Our banks are of the soundest, conducted by men of the highest integrity who are working together to protect the interests of the planter, the business man and the laborer."

"Our business houses are sound, there is room for all of us, good times are with us now and better times are ahead of us."

"Good times do not only just happen they come from the working together of all those engaged in business."

"We should each go from this meeting determined to do our parts in furthering the best ends of the community in furthering our mutual interests and unite in deporting the 'croaker' who sees only trouble and disaster ahead of us."

WILL PROBABLY APPEAL.

The Territory will probably appeal to the Supreme Court from the decision of Judge De Bolt in the tax case of E. J. Monsarrat. In this case Judge De Bolt held that the Territory could not collect some \$1200 in taxes covering a period of five years, because it had been assessed to a person owning only a life interest in the property, and not proportionally to the other parties having interests.

LOWRIE WILL FILE NEW COMPLAINT

PAPERS NOW IN HANDS OF HIGH SHERIFF—NEW NAMES ADDED IN THE CAUSE

In accordance with Judge Robinson's decision in the case of Lowrie vs. Baldwin, et al., rendered yesterday, the plaintiff has availed himself of the privilege granted of filing an amended complaint, the papers for the same now being in the hands of the High Sheriff for service.

The amended bill differs principally in the matter of the parties made defendants. These are H. P. Baldwin, J. B. Castle, W. R. Castle, George P. Castle, S. N. Castle Estate, Ltd., Jos. P. Cooke and William Alexander. The sisters of J. B. W. R., and G. P. Castle, made parties to the cause in the first bill, are in the new bill omitted, and the S. N. Castle Estate substituted.

The amended bill as in the original claims that the opportunity of making \$400,000 by the plaintiff from 5000 shares of the stock of the Hawaiian Commercial & Sugar Company, was lost to him by the defendants removing him from the position of manager of the plantation, whereby he was unable to pay for the shares, and compelled to sell them at a loss, the defendants thus reaping the profit he would have made; also that breach of contract resulted from the action.

Arguments on a motion of the defendants to certify the case direct to the Supreme Court on exceptions, which were to have been made yesterday afternoon were continued until Saturday morning.

THE TAX COMMISSION.

The Territorial Tax Commission held its first meeting yesterday since its reorganization made necessary by the resignations one time ago of Governor Frear and Justice Wilder of the Supreme Court. A. F. Judd, the remaining member, called the meeting to order, the new members, L. Tenney Peck and A. Perry, being present. Mr. Perry was made president, while Mr. Judd continues as secretary.

The Commission will take up its work where the old board left off, and an outline of procedure has been perfected.

BORN.

MERRILL—In Honolulu, December 11, to the wife of Professor A. M. Merrill of the Mills Institute, a son.

ENGLISH ROAD IS AFTER OHIA TIES

COLONEL MACFARLANE PILOTS AN OFFICIAL OF THE GREAT NORTHERN RAILWAY

HILO, December 10.—Colonel G. W. Macfarlane who arrived by the Kinau last week and went on a tour of inspection of the ohia and kon lumbering industry which is now being developed in this island, returned from the Volcano on Friday, accompanied by W. G. Wigram of Leeds, England, and went out overland by automobile the same day.

"My visit was entirely to show Mr. Wigram over the land," said the colonel to a representative of the Tribune. "He represents directly the largest company manufacturing steam gang plows in the world, in fact it is the only company that makes the particular plow now most used. This is Fuller & Co. of Leeds and of London England, a company in which he is a director. Indirectly he represents also the Great Northern Railway of England as his father is the senior director of that road."

"We went together through Southern California where the beet industry is conducted now entirely with the use of their plows and as he expressed a wish to see the islands I was delighted to act as his guide. He was particularly interested in the export of ohia ties for the Santa Fe railroad. The Great Northern railway, he tells me, import an immense number of hardwood ties yearly from Russia but he does not think that the quality of these compares at all with ohia. He has secured samples and will send these back to England to be tested by engineers there."

"The ohia industry, allied as it is with the kon, looks to me to have a fine future before it. Mr. Wigram, who has traveled all over the world, stated that he had never seen a more beautiful wood than different samples of the 'Hawaiian mahogany' otherwise known as kon which were shown him."

On their way back to Honolulu Col. Macfarlane and Mr. Wigram will be the guests of H. P. Baldwin on Maui for some days.

HARD TO ESTIMATE.

Myer (reading)—"It costs \$21 a week to feed a circus tiger." Gyer—"Well, at that rate what would the monthly board of a catamount be?"
